

CartoPac International Introduces Turnkey Mobile Enterprise Platform for Oil & Gas

Jumpstart Product Delivers Immediate Value for Pipeline and Related Assets

Fort Collins, CO, Oct. 19, 2011 /PRNewswire/ -- CartoPac International Inc, a global provider of leading GIS enterprise solutions for field asset management, today announced Jumpstart, a rapid deployment platform combining tools, expertise, and methodologies, to accelerate implementation of a mobile enterprise GIS platform for pipeline and related assets.

Designed to help Oil & Gas companies innovate and reinvent quickly, Jumpstart sets a new standard for improving the efficiency and productivity of companies managing their pipeline and related assets. Backed by our technical team of GIS experts, Jumpstart enables companies to initiate their mobile enterprise solution within days, while serving as the foundation to a broader, comprehensive GIS field asset management plan for the enterprise.

"I can't think of a faster or easier way for our customers to generate immediate tangible results," said Ken Schrader, President of CartoPac International Inc. "Leveraging our expertise and best practices used in the oil and gas industry over the past 10 years, Jumpstart provides a proven process for getting started quickly, while providing a clear roadmap to implementing a successful enterprise-wide solution."

CartoPac™ Jumpstart, built upon Esri ArcGIS Server, is available now to all Esri's users in the Oil & Gas industry. Explore the benefits of Jumpstart at the GITA Oil and Gas Conference in Houston on October 24-26.

About CartoPac

CartoPac™, a global GIS company, partners with our clients to deliver innovative, accurate and efficient GIS enterprise solutions to manage their field assets. CartoPac's years of GIS and Energy industry expertise, innovative leadership in high accuracy field data collection and reliance upon the Esri industry standard ArcGIS server technology combine to create CartoPac enterprise solutions that you can trust to manage your GIS data. Founded in 1998, CartoPac today has an international presence across the Americas, Europe and the Middle East. Learn more at www.cartopac.com
